

ENTRON™

EN7000TS/P-FP6(#SCR)/EIP EN1000 / 1001 CASCADE UPGRADE KIT

- The EN7000TS/P-FP6(# SCR)/EIP, whereby # stands for number of SCR's (2 through 8)
- Example shows:- Retrofit/Upgrade an existing EN1000(6)/EN1001(6) Cascades.
- This cost saving configuration reuses the existing SCRs but replaces the obsolete EN1000/1001 Cascade-multivalve Control with the EN7000TS or EN7000 gear frame timer.
- The EN7000TSP-FP (flat plate) KIT is available in configurations for (2SCR) up to (8SCR)
- Primary Current CTs are available in 1000A, 2000A, 3000A and 4000A
- AC Air Valve option available.
- Additional Standard features include Ethernet (EIP), NetFlash Software for remote programming.
- Consult the EN7000/EN7000TS brochure for full feature list.
